

## Ig usage data and statistics – May 2025

### Overview

Recent data and statistics on Ig use in Australia are presented below, providing a snapshot of Ig usage and trends in Australia. To accommodate data entry and reconciliation requirements, data are usually published approximately three months in arrears.

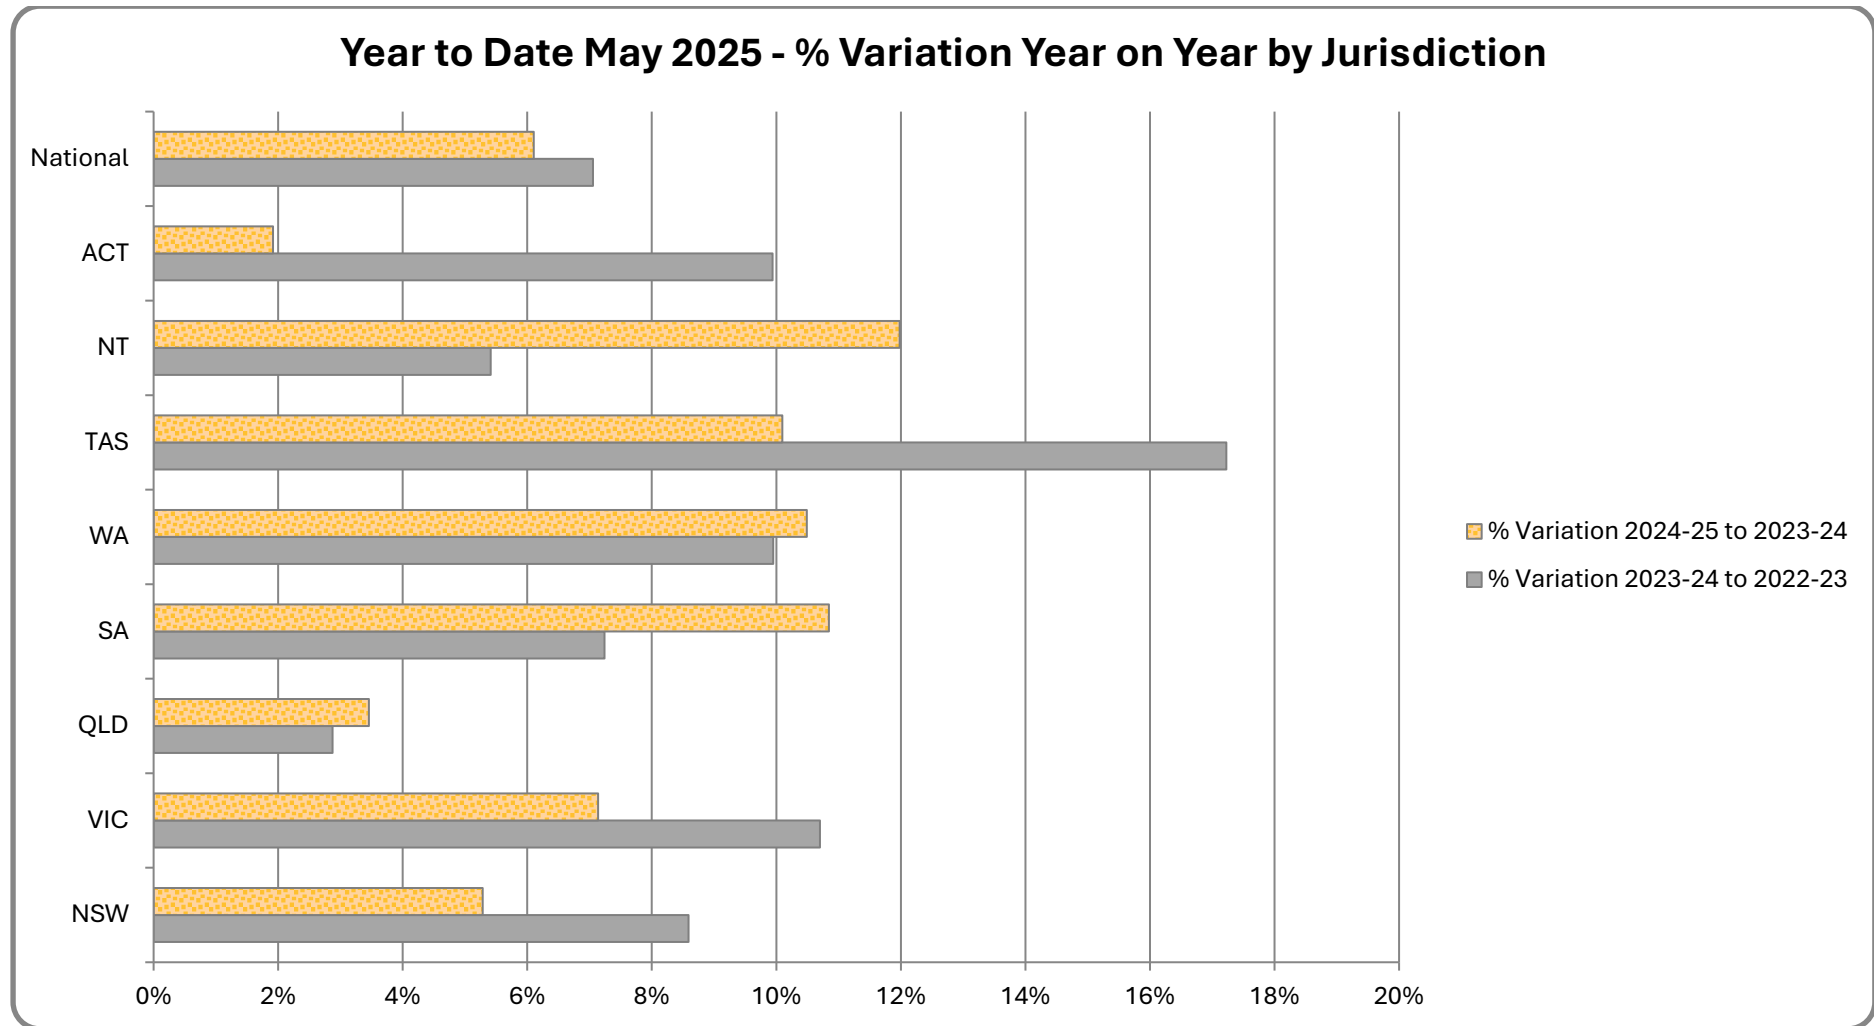

### Snapshot

The snapshot provides an overview of the information that is further detailed in the graphs and tables that follow.

Patients	BloodSTAR
16,839 Total Patients May 2025	1,472 Authorisations in May 2025
935 New Patients who had Dispenses in May 2025	30,543 Dispense Events in May 2025
Product Issued	Ig Use
873,808 Grams Issued in May 2025	859,128 Grams Dispensed in May 2025
\$95 Million Expenditure in May 2025	239,615 g <b>Acquired hypogammaglobulinaemia — haematological malignancy or post HSCT</b> Grams Highest Medical Condition in May 2025

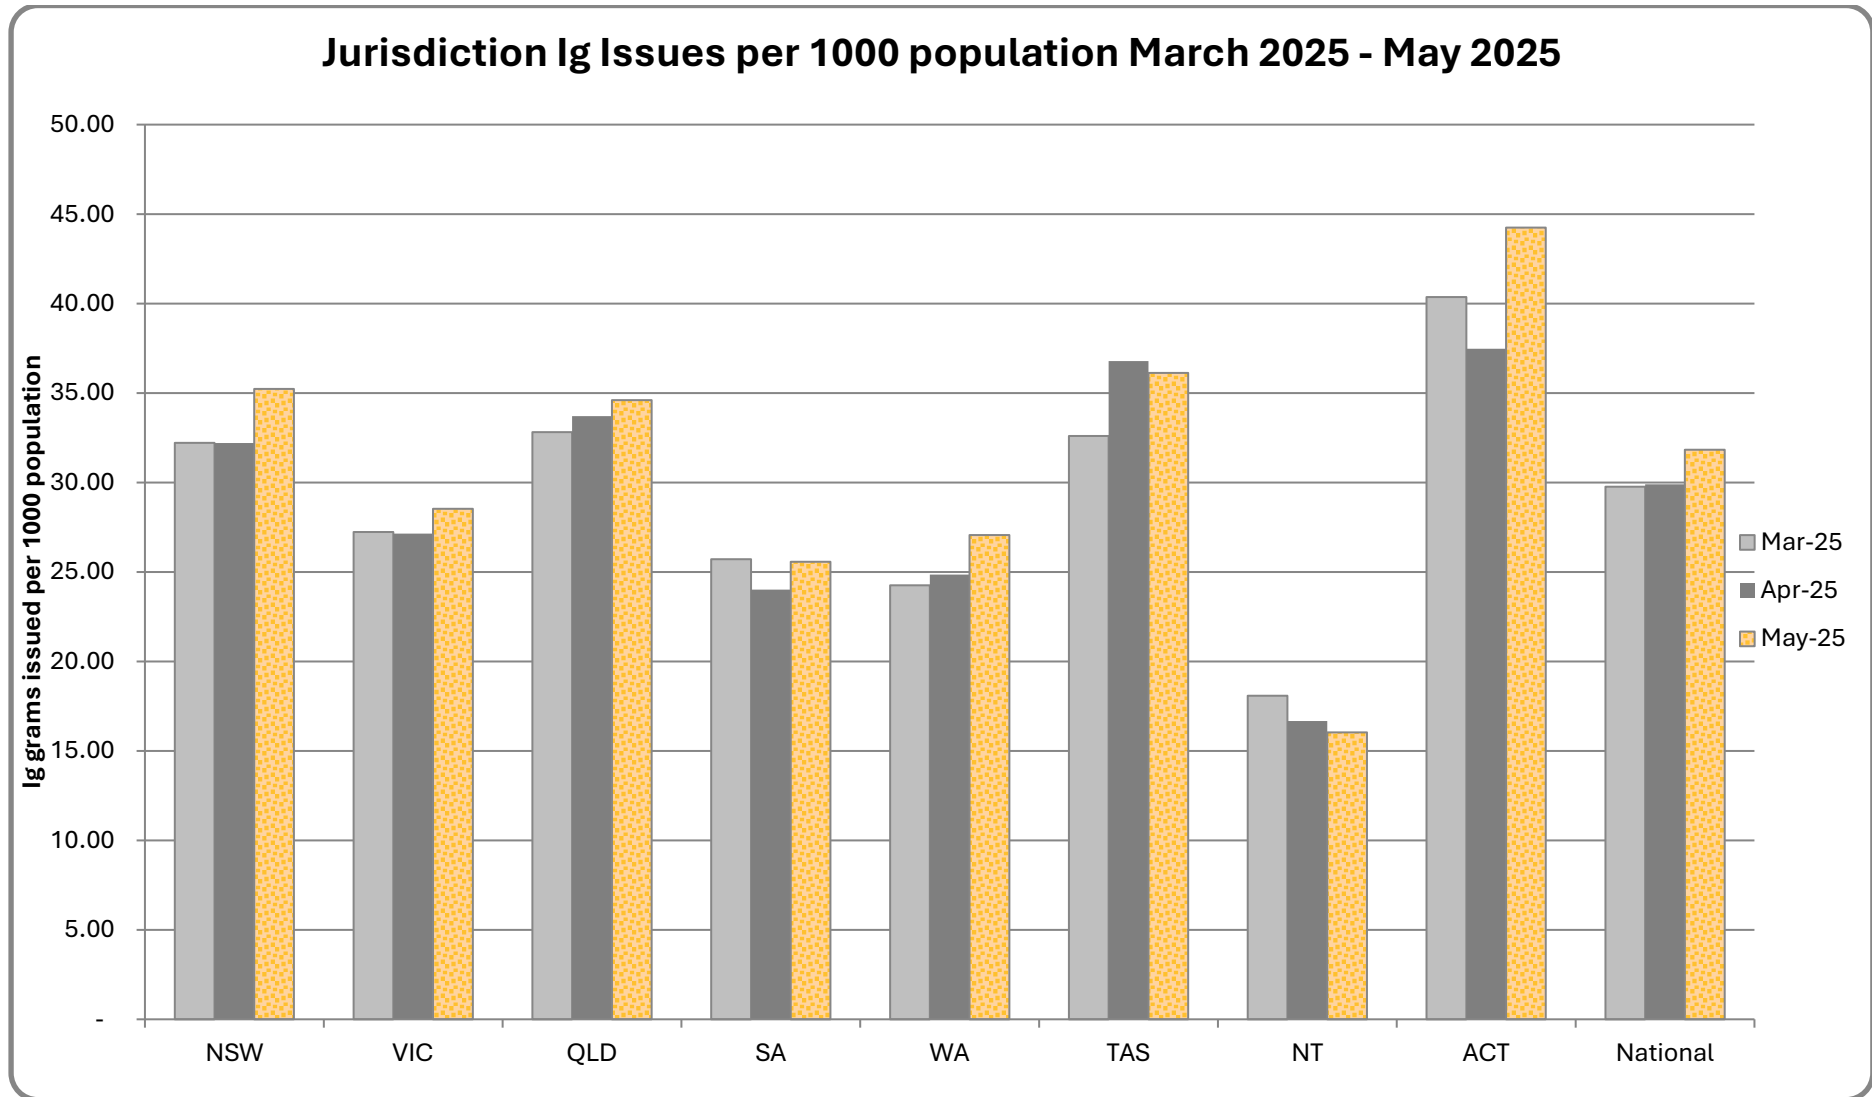

**Ig use**

**Year to date May 2025 - % variation year on year by jurisdiction.** This graph shows cumulative percentage changes in Ig issued, nationally and by jurisdiction, for the current financial year to date as compared to the same period in the previous financial year.

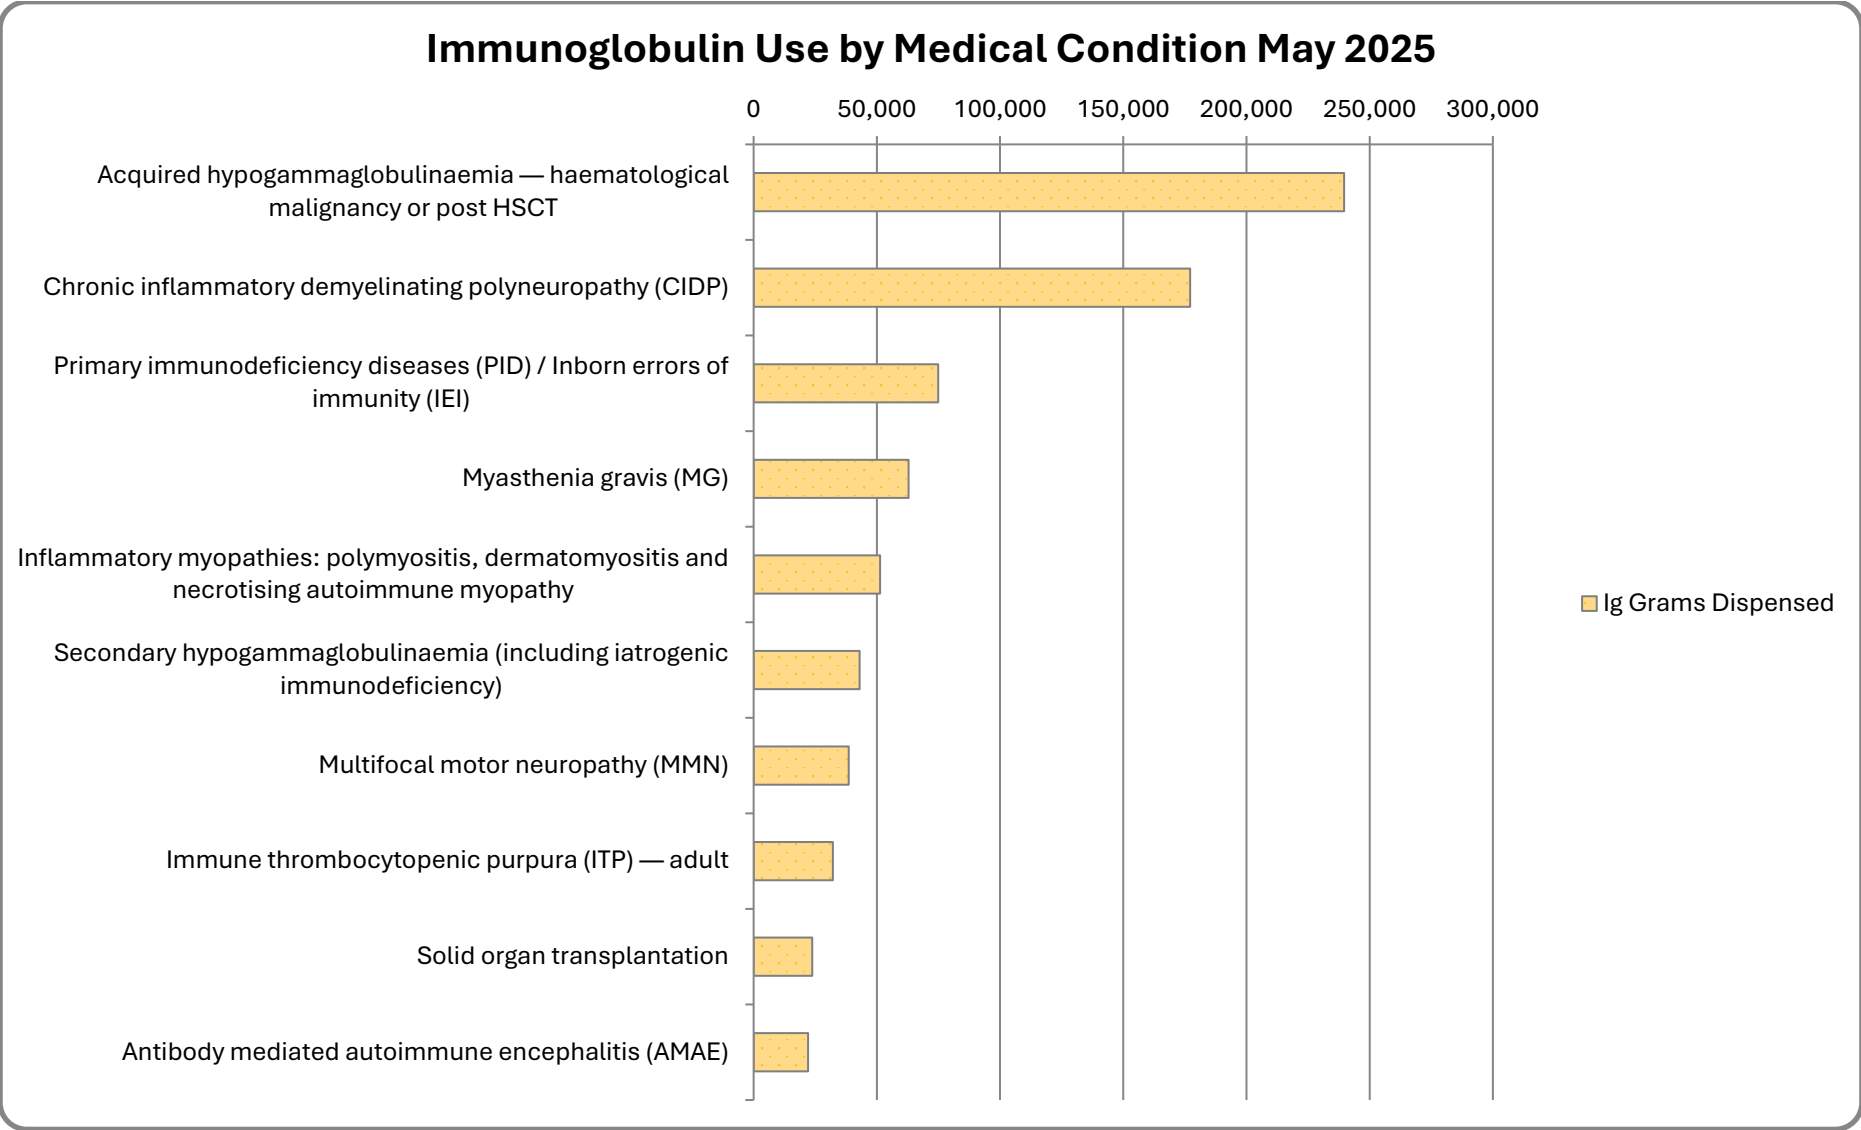

OFFICIAL

**Issues of Ig per 1,000 population by jurisdiction.** This graph shows the amount of Ig issued (grams) per 1,000 population nationally and by jurisdiction for the previous 3 months.

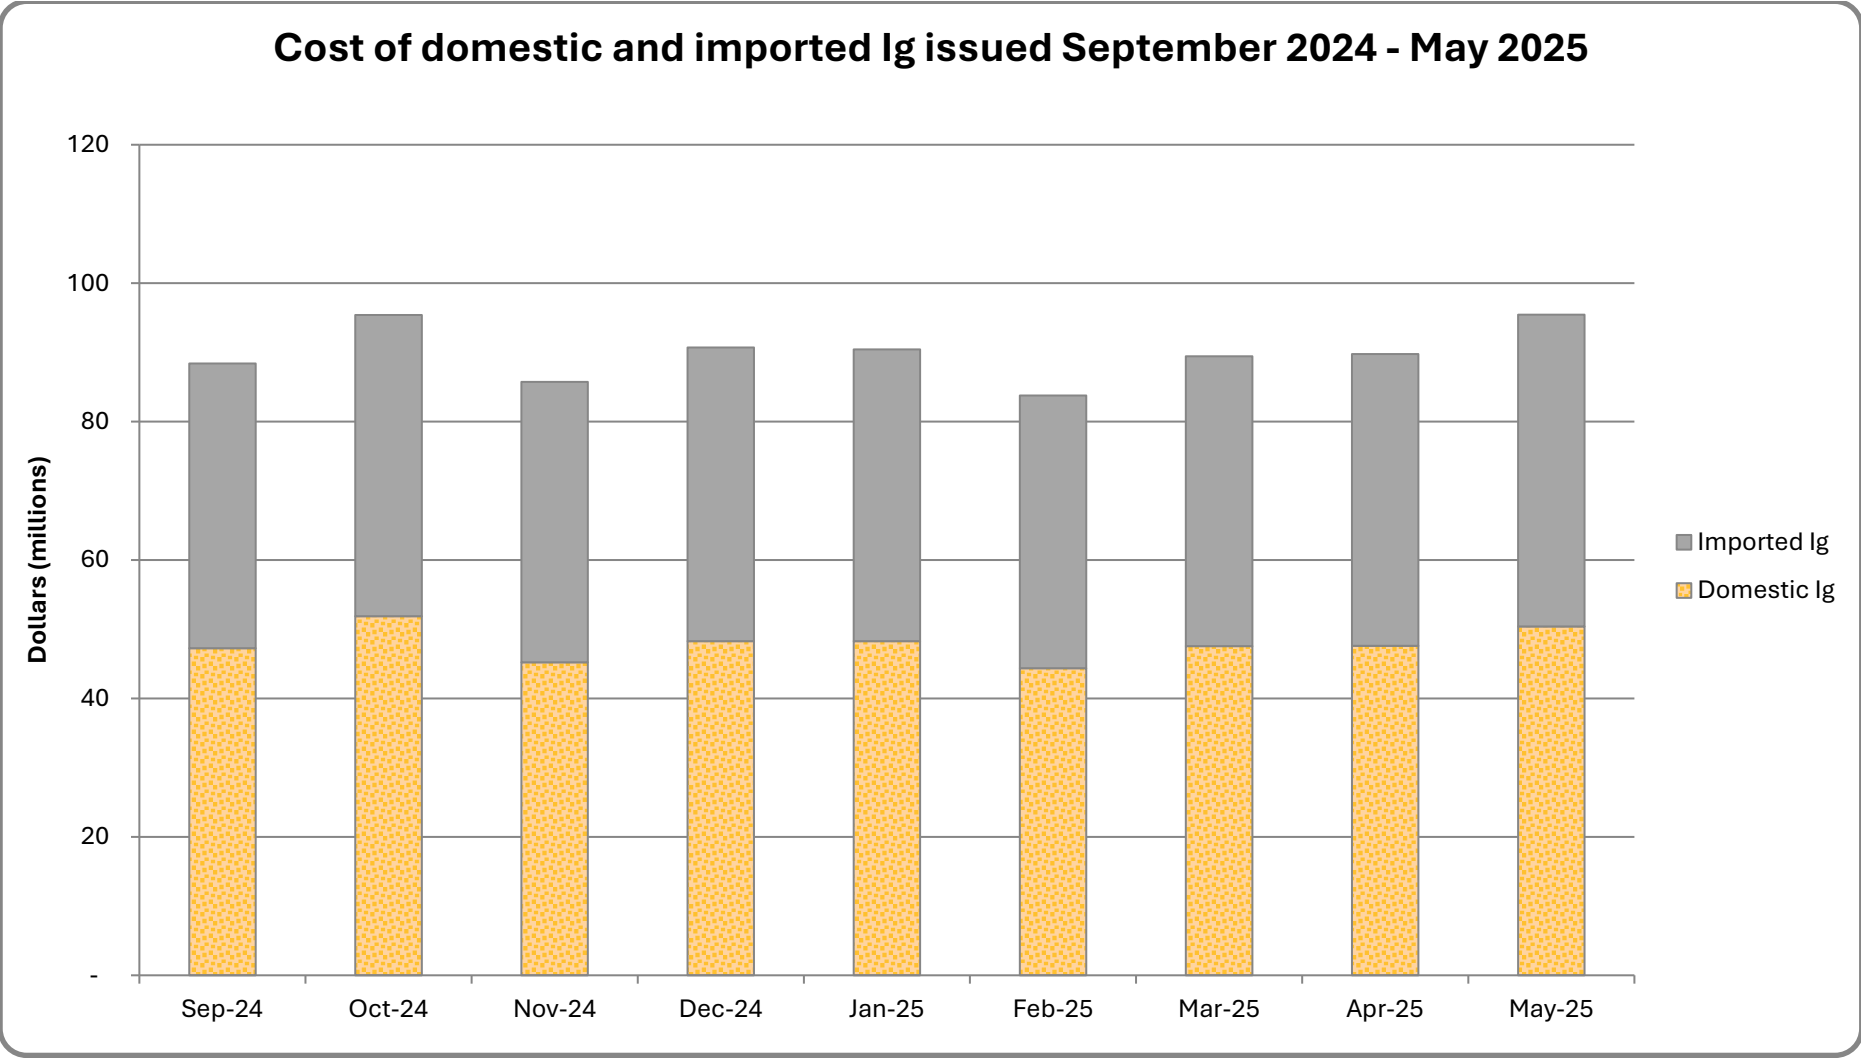

OFFICIAL

**Ig use by medical condition.** This graph shows the medical conditions which account for the highest use (grams dispensed) of Ig products.

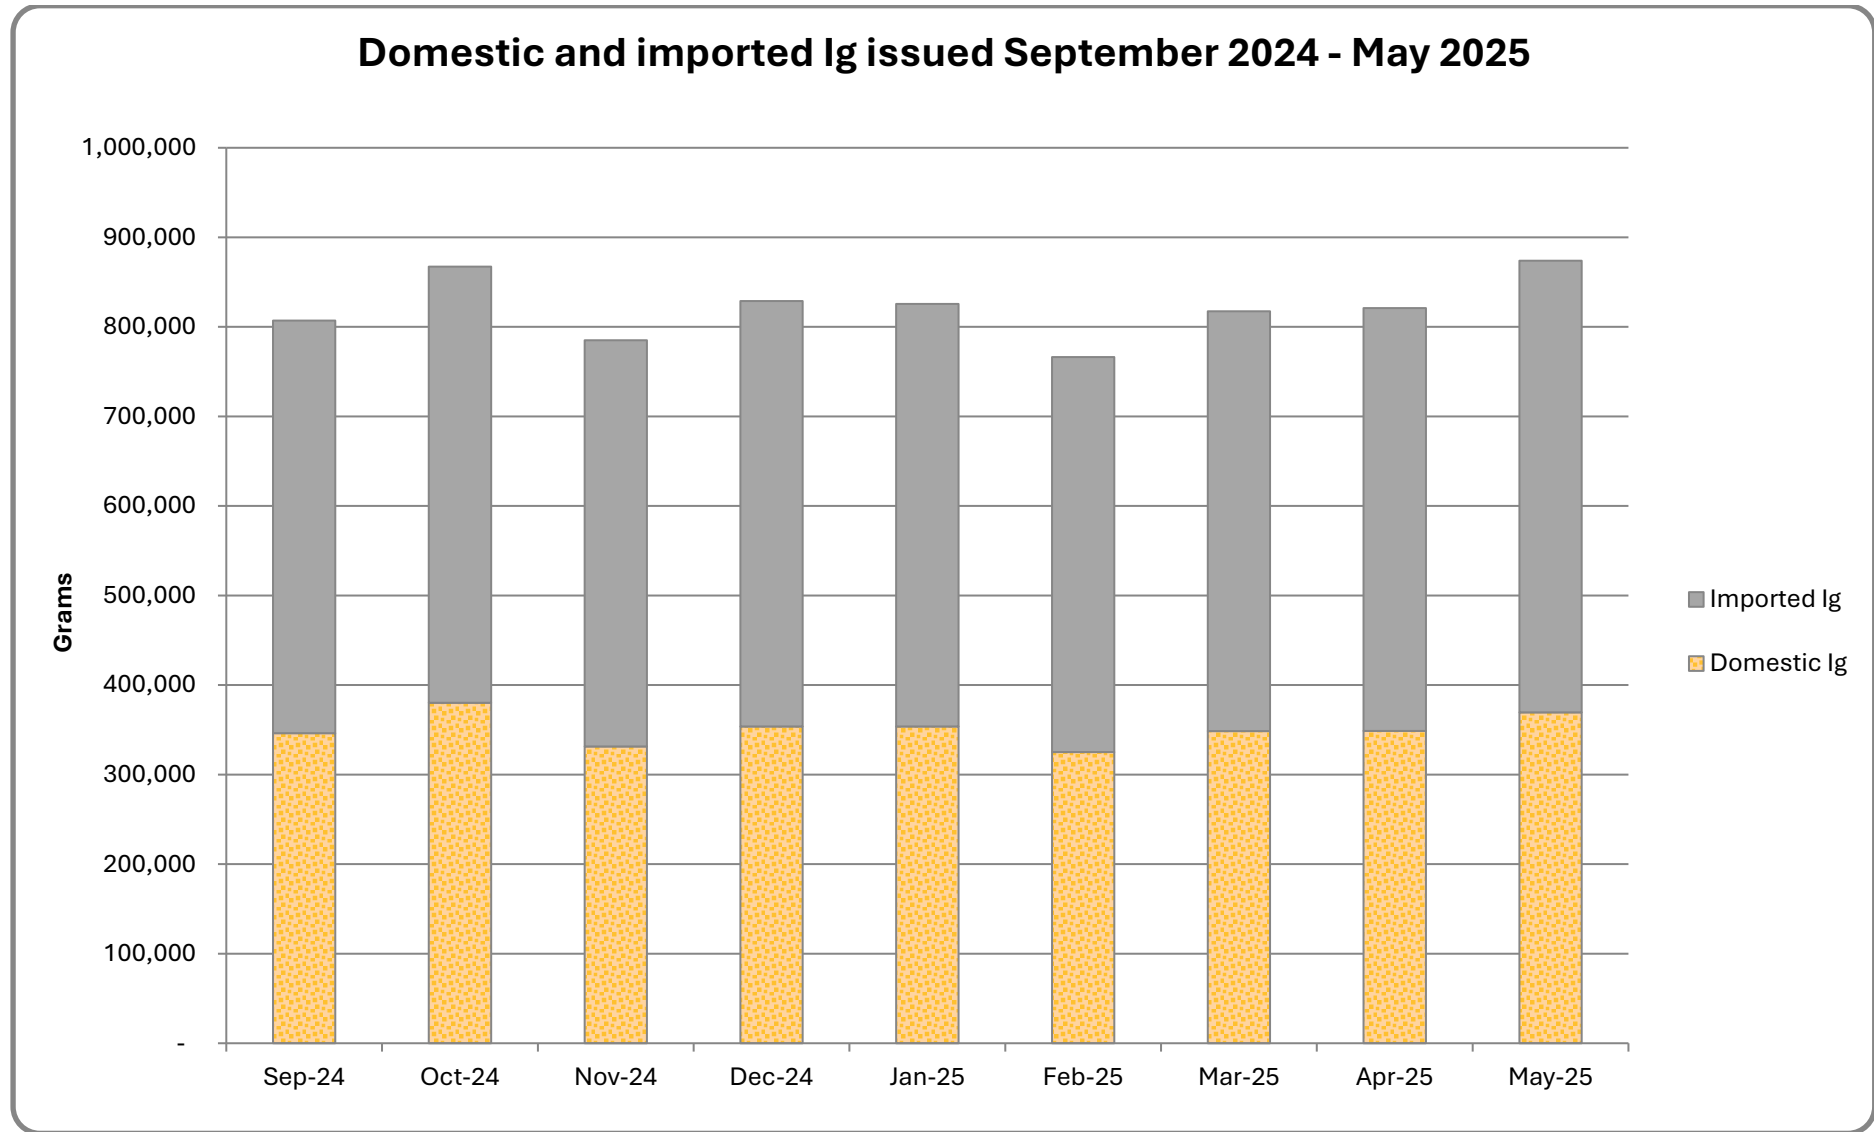

Product issued

Monthly expenditure on Ig. This graph shows the cost of Ig products issued over the last 9 months.

OFFICIAL

**Monthly usage of Ig.** This graph shows the amount of domestic and imported Ig products issued (grams) in the last 9 months.

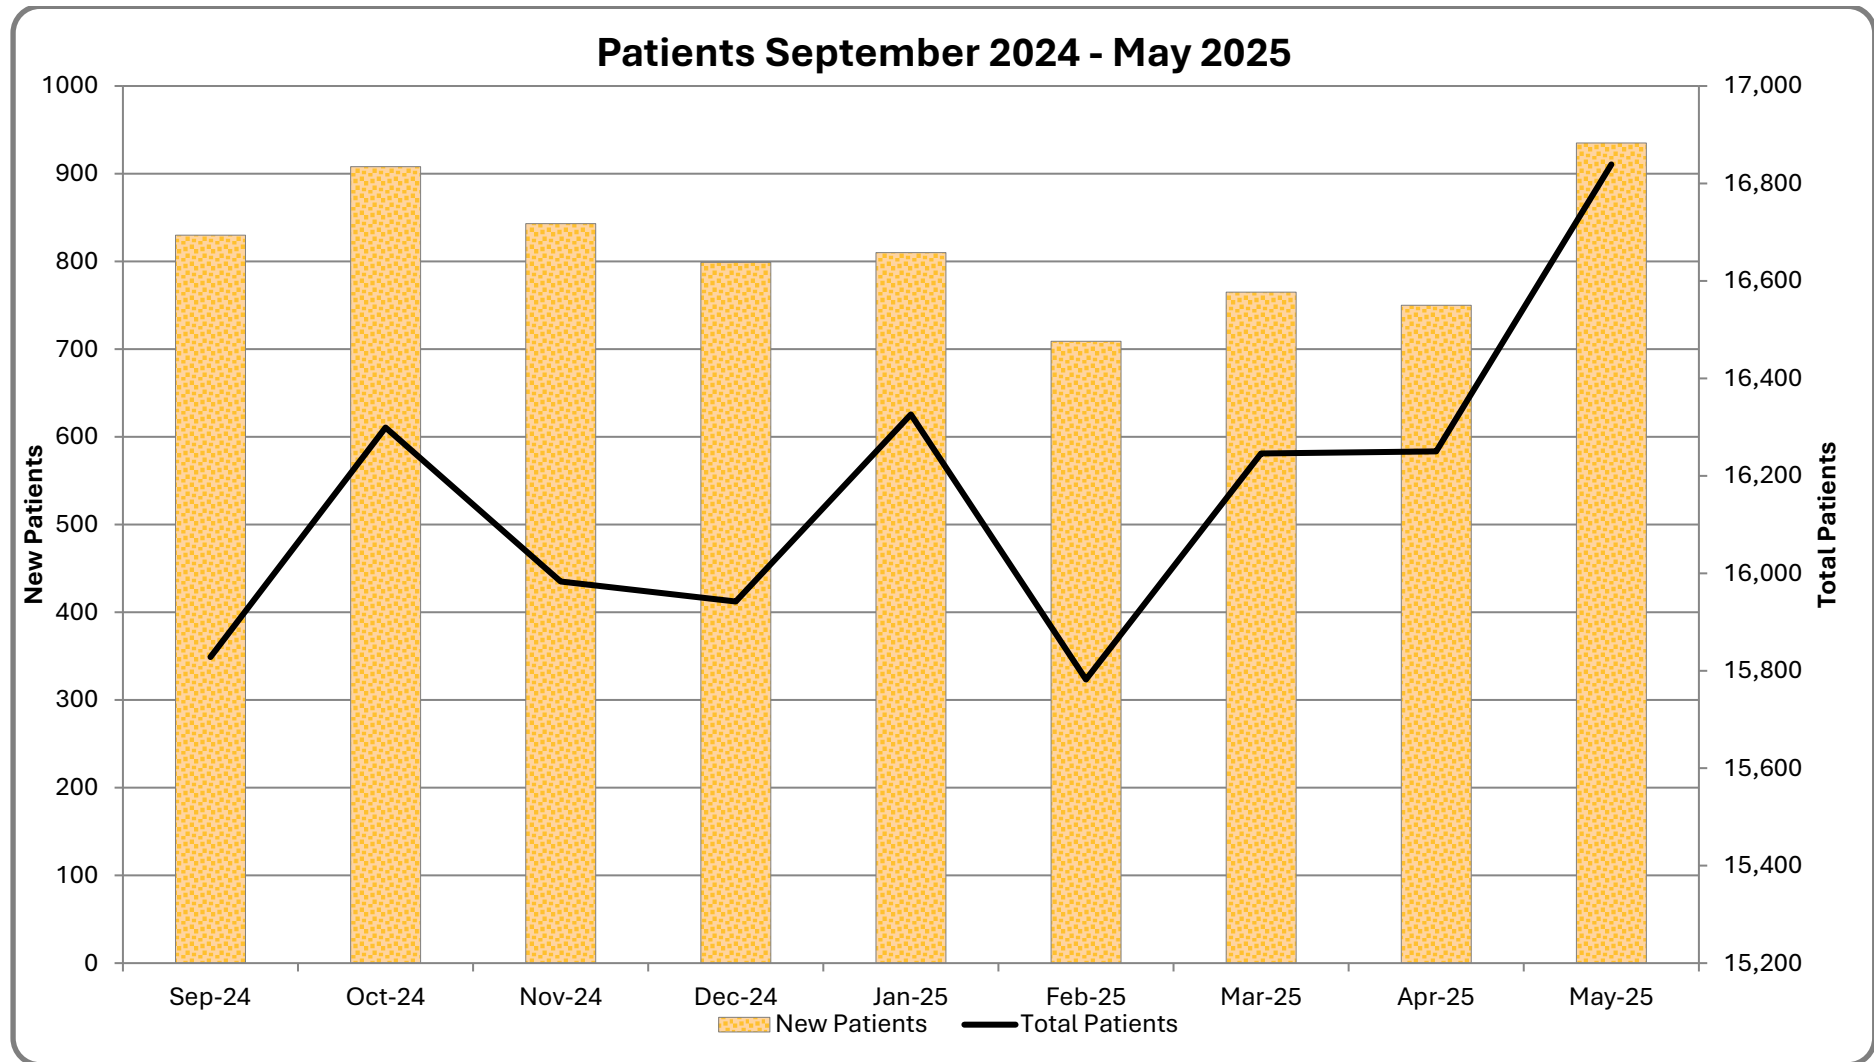

OFFICIAL

Number of registered facilities	Number of registered SCIg approved facilities	Total number of registered users
1,217	122	28,617

**More information**

Annual reports on the issue and usage of immunoglobulin provide further information. For context and links, see: [Immunoglobulin usage and data | National Blood Authority](#).

In addition:

BloodSTAR Facility Administrators can access reports about their facility's Ig usage through the reports function in BloodSTAR.

Jurisdictional Reports are available to Jurisdictional Blood Committee (JBC) representatives and their nominees. These provide information on the Ig dispensed for each State and Territory.

The NBA will also consider specific requests for data. All requests will be considered in line with the NBA's Data and Information Governance Framework. More information, including about how to submit data requests, is available [here](#).
