

## Ig usage data and statistics – October 2025

### Overview

Recent data and statistics on Ig use in Australia are presented below, providing a snapshot of Ig usage and trends in Australia. To accommodate data entry and reconciliation requirements, data are usually published approximately three months in arrears.

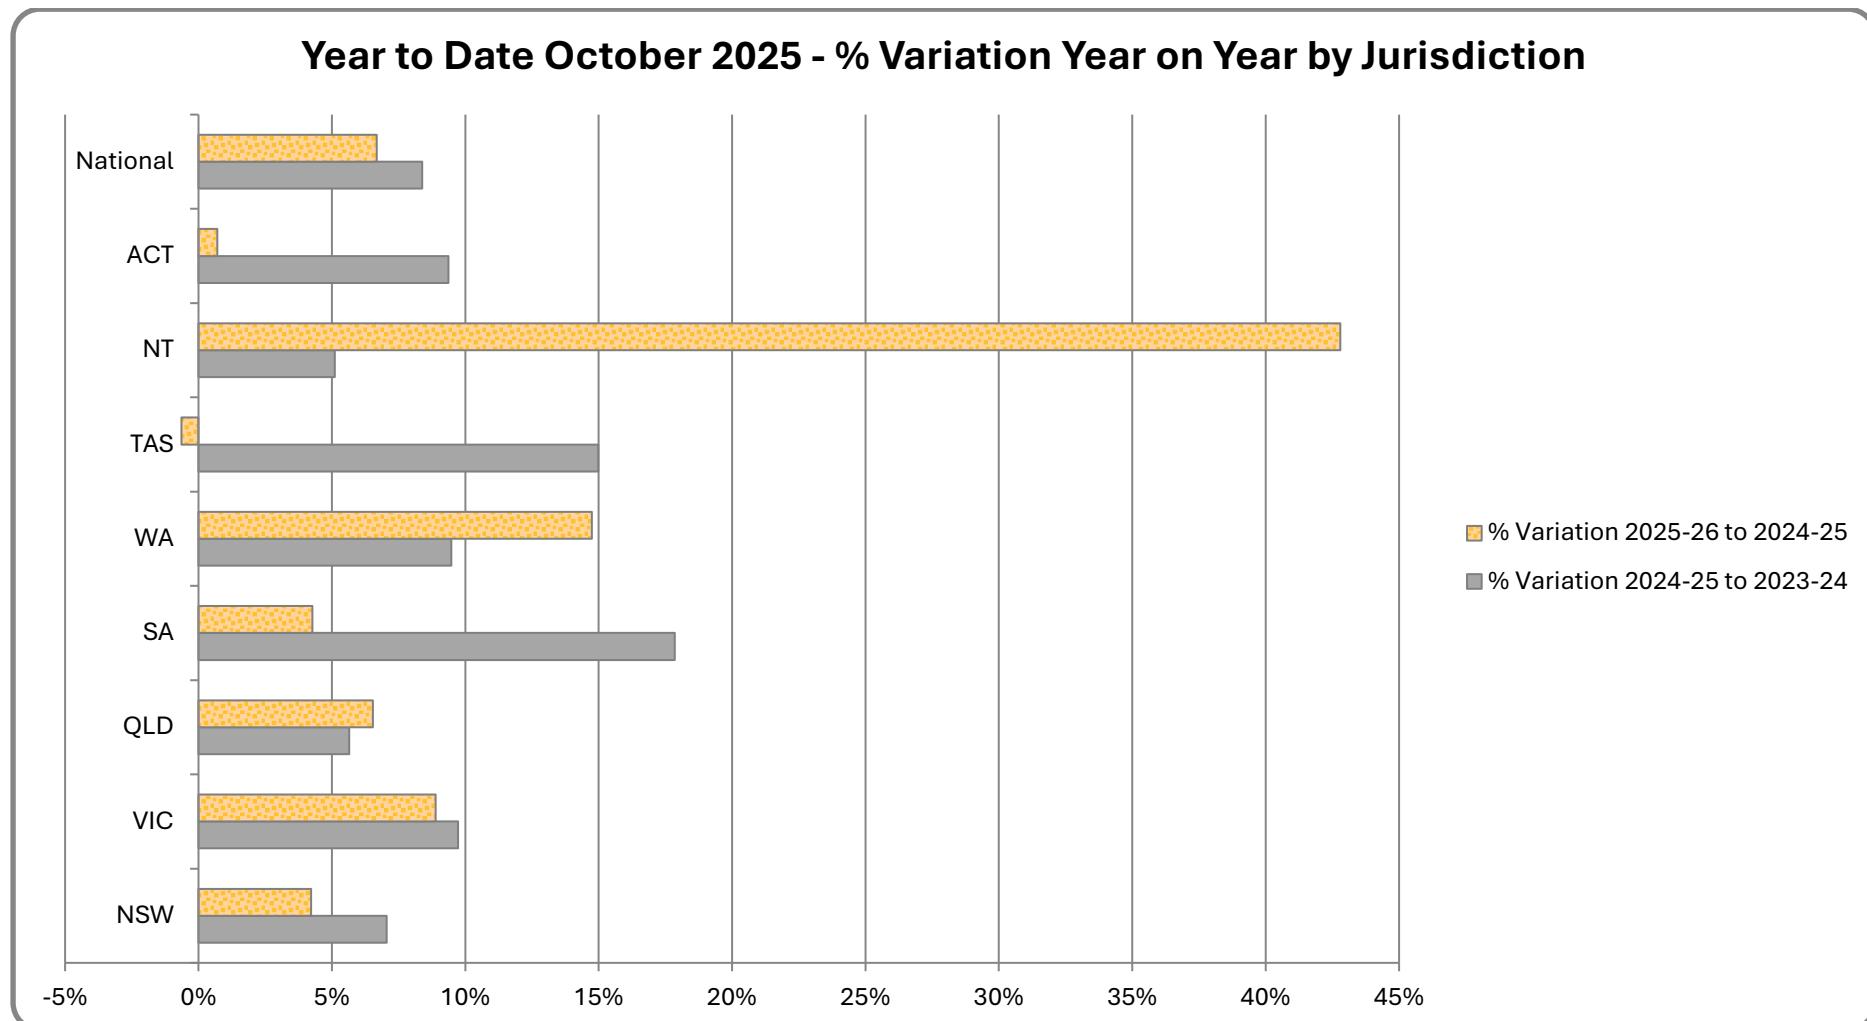

### Snapshot

The snapshot provides an overview of the information that is further detailed in the graphs and tables that follow.

| Patients  | BloodSTAR  |
|---|--|
| 17,512<br>Total Patients October 2025                 | 1,458<br>Authorisations in October 2025  |
| 968<br>New Patients who had Dispenses in October 2025 | 32,296<br>Dispense Events in October 2025  |
| Product Issued  | Ig Use   |
| 909,271<br>Grams Issued in October 2025               | 889,024<br>Grams Dispensed in October 2025   |
| \$105 Million<br>Expenditure in October 2025          | 247,184 g<br>Acquired hypogammaglobulinaemia — haematological malignancy or post HSCT<br>Grams Highest Medical Condition in October 2025 |

## Ig use

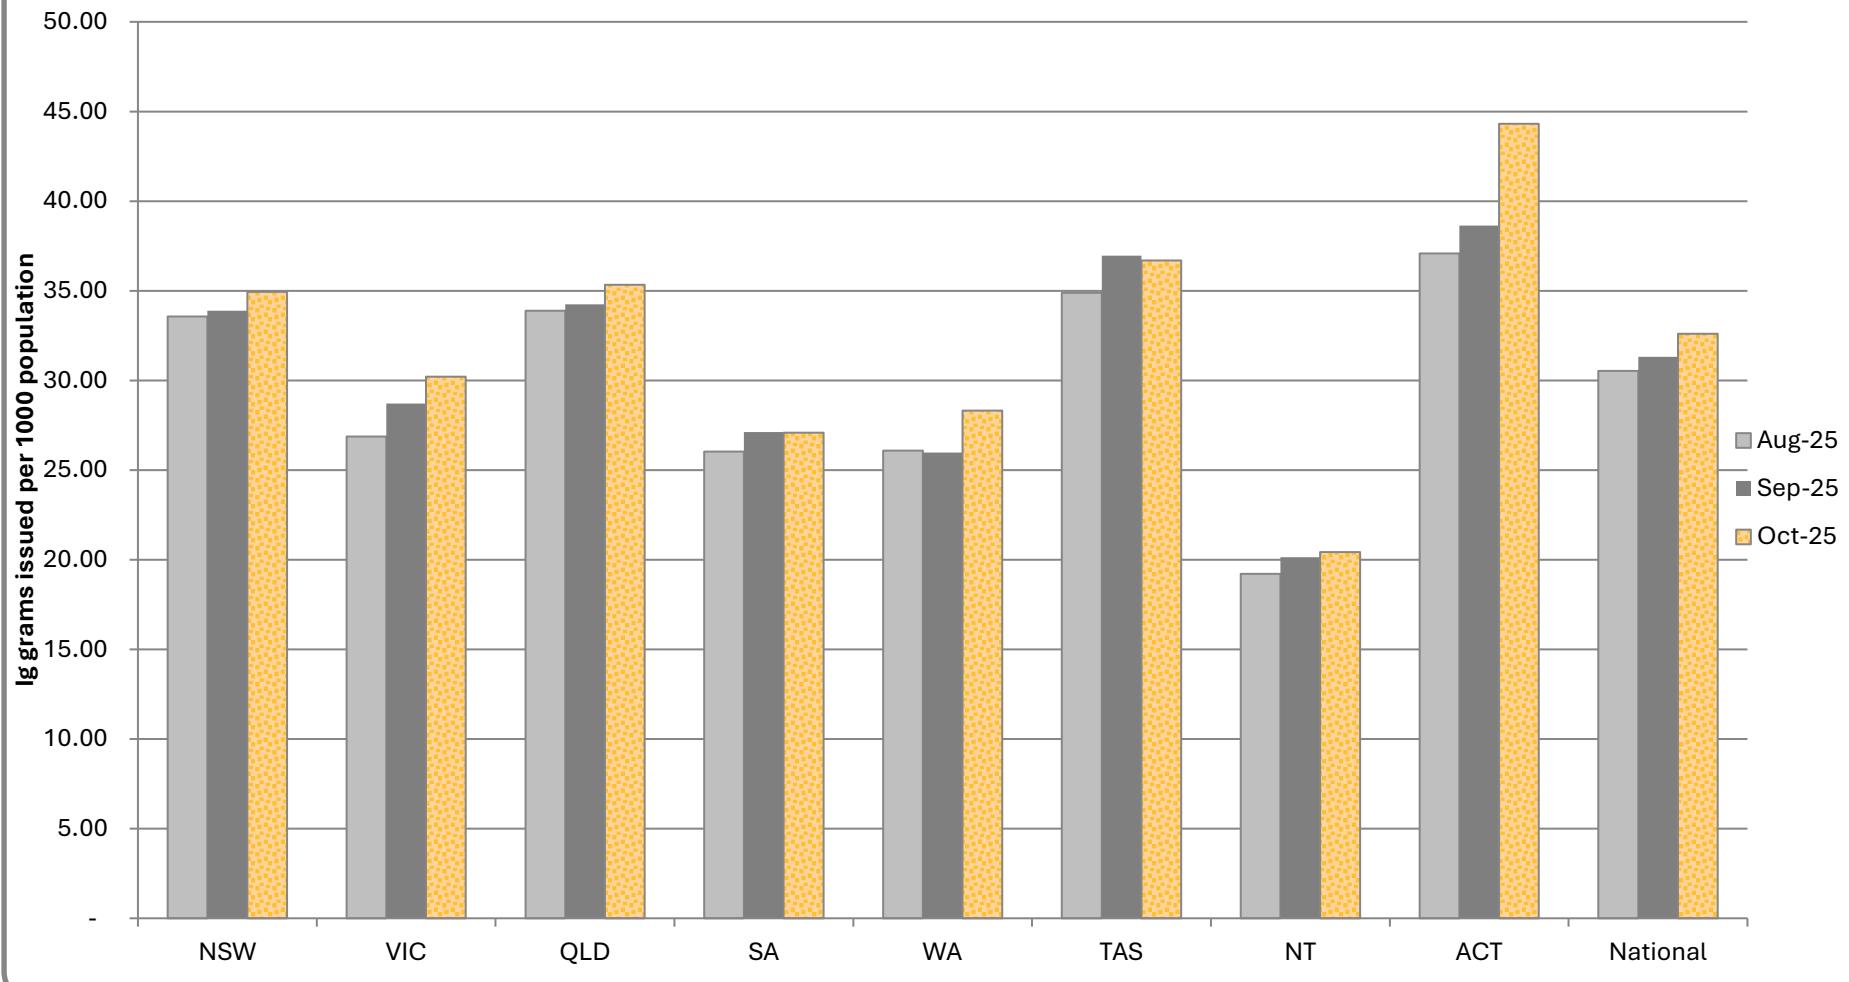

**Year to date October 2025 - % variation year on year by jurisdiction.** This graph shows cumulative percentage changes in Ig issued, nationally and by jurisdiction, for the current financial year to date as compared to the same period in the previous financial year.

OFFICIAL

**Issues of Ig per 1,000 population by jurisdiction.** This graph shows the amount of Ig issued (grams) per 1,000 population nationally and by jurisdiction for the previous 3 months.

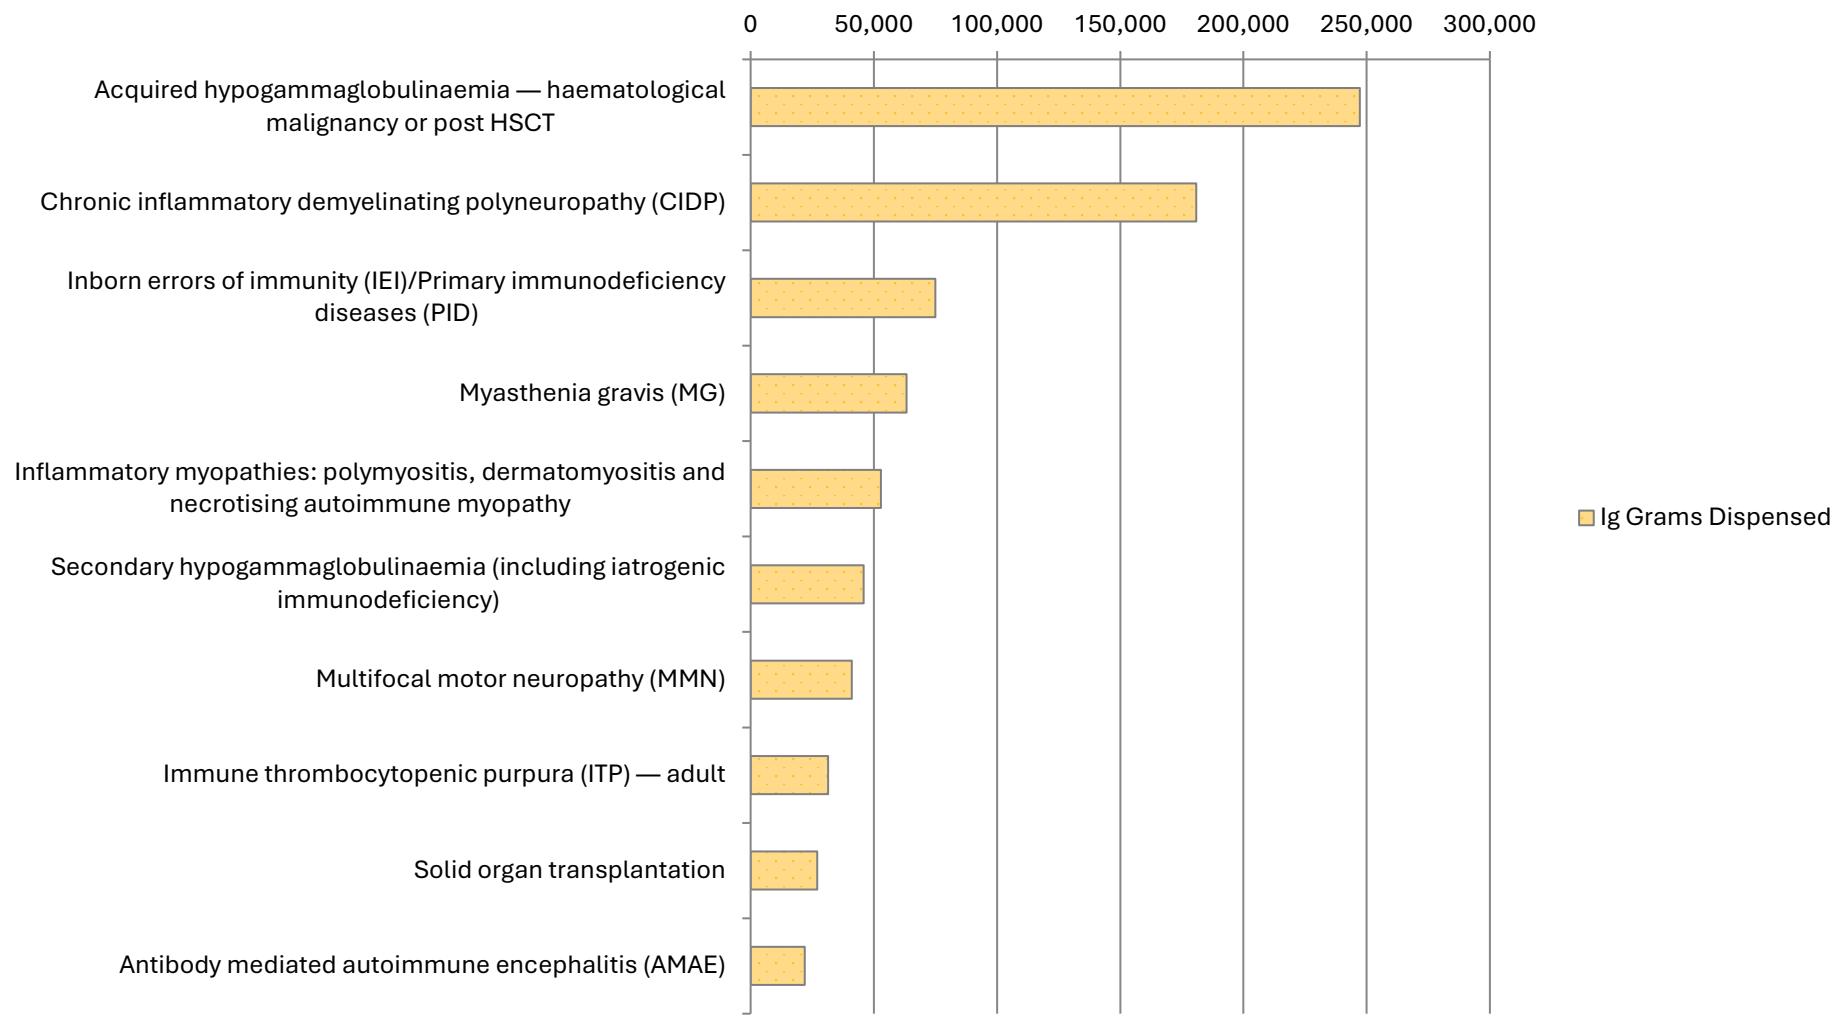

### Jurisdiction Ig Issues per 1000 population August 2025 - October 2025

OFFICIAL

Ig use by medical condition. This graph shows the medical conditions which account for the highest use (grams dispensed) of Ig products.

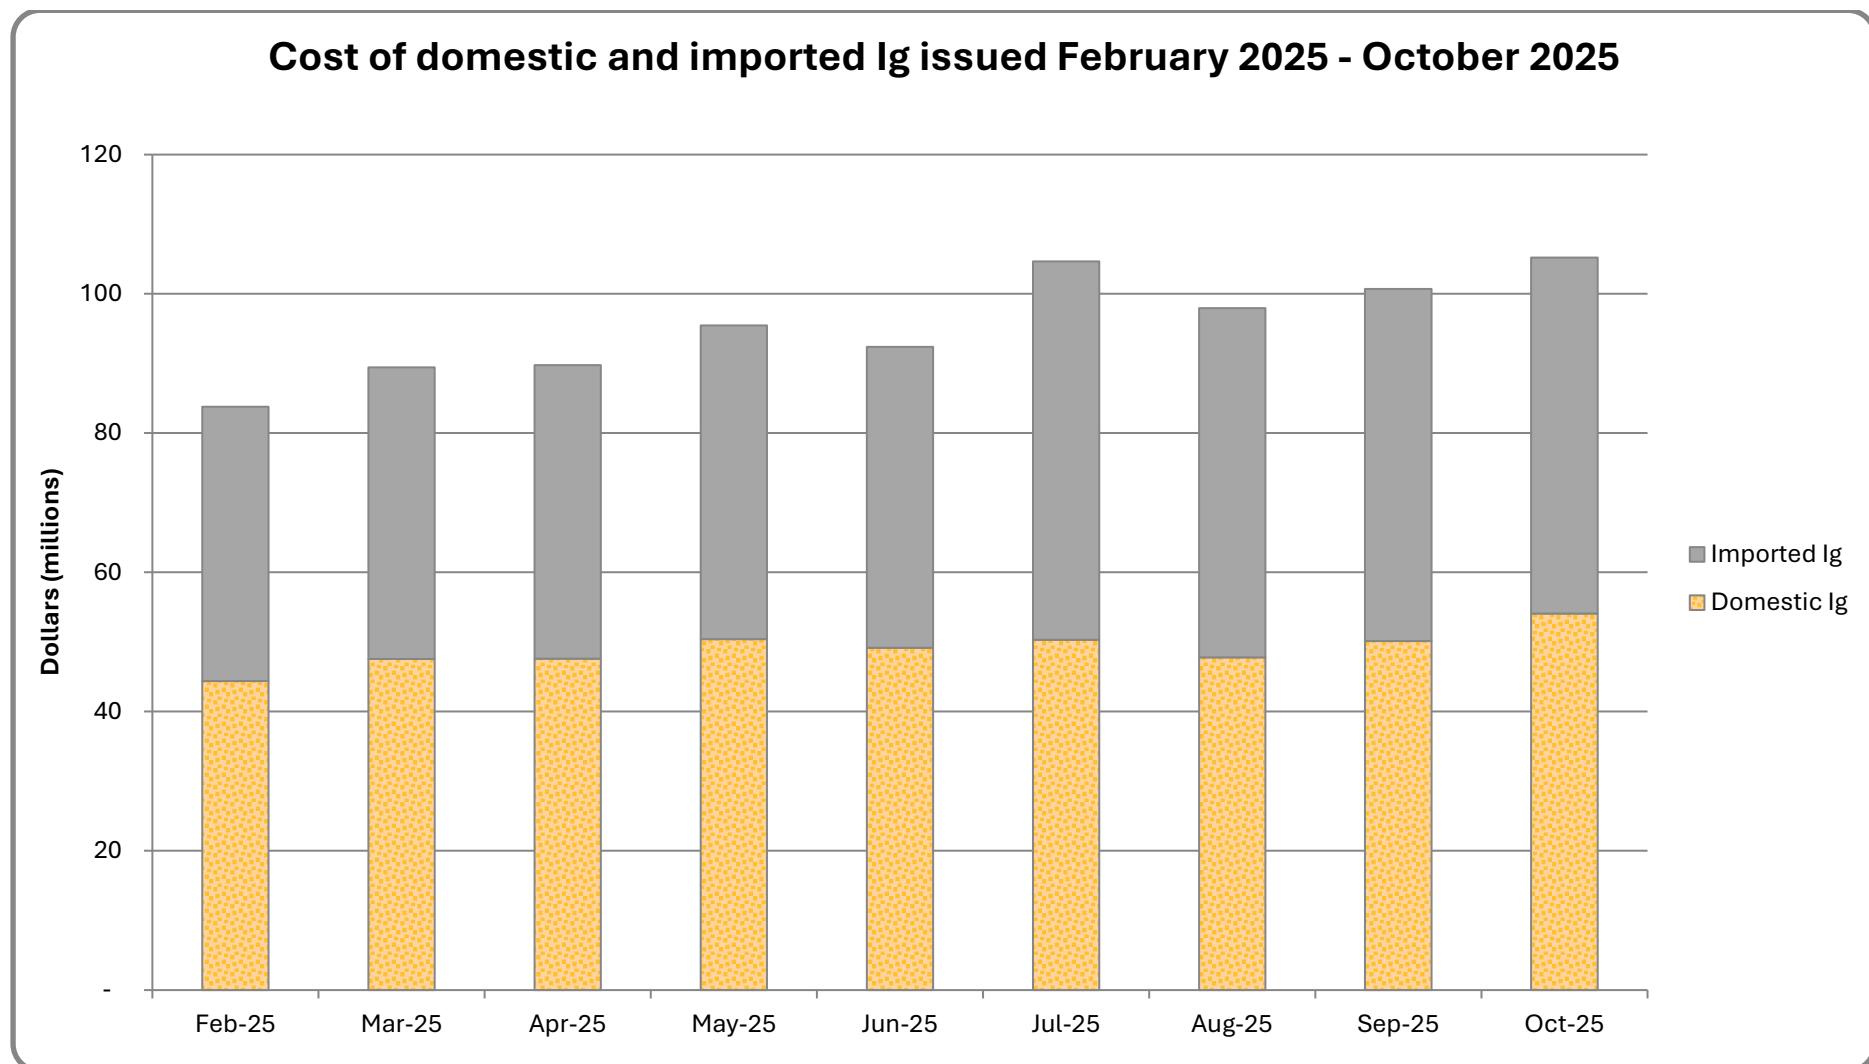

### Immunoglobulin Use by Medical Condition October 2025

OFFICIAL

**Product issued**

**Monthly expenditure on Ig.** This graph shows the cost of Ig products issued over the last 9 months.

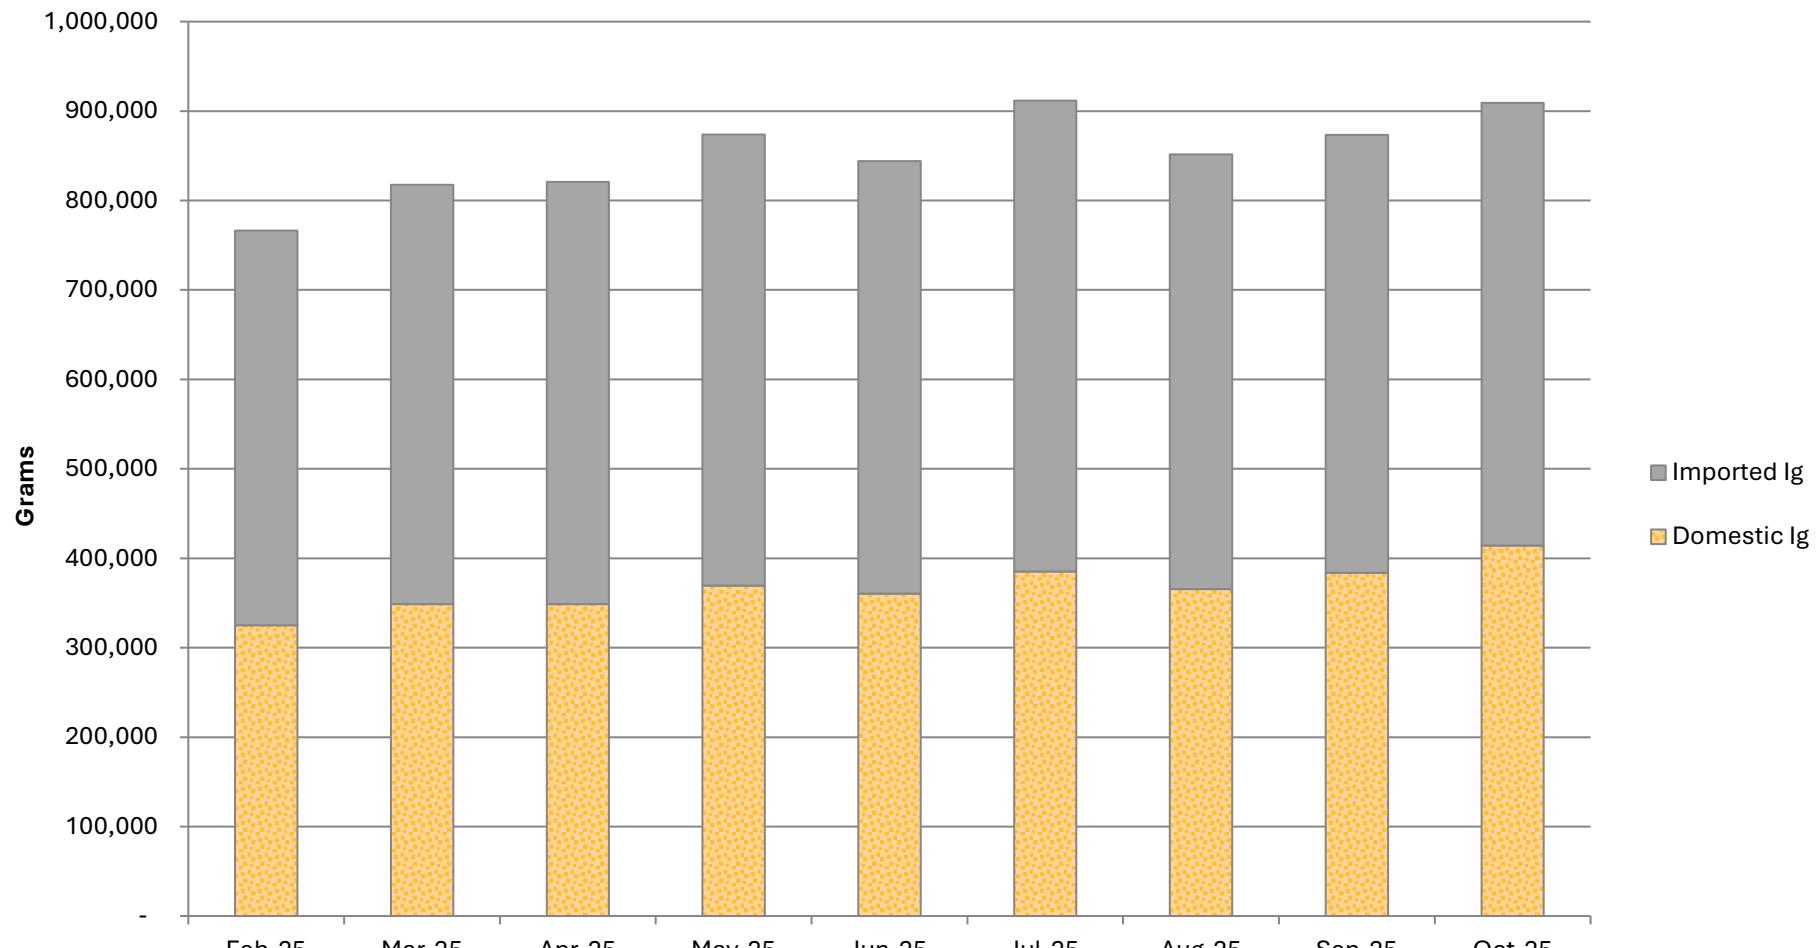

OFFICIAL

OFFICIAL

**Monthly usage of Ig.** This graph shows the amount of domestic and imported Ig products issued (grams) in the last 9 months.

### Domestic and imported Ig issued February 2025 - October 2025

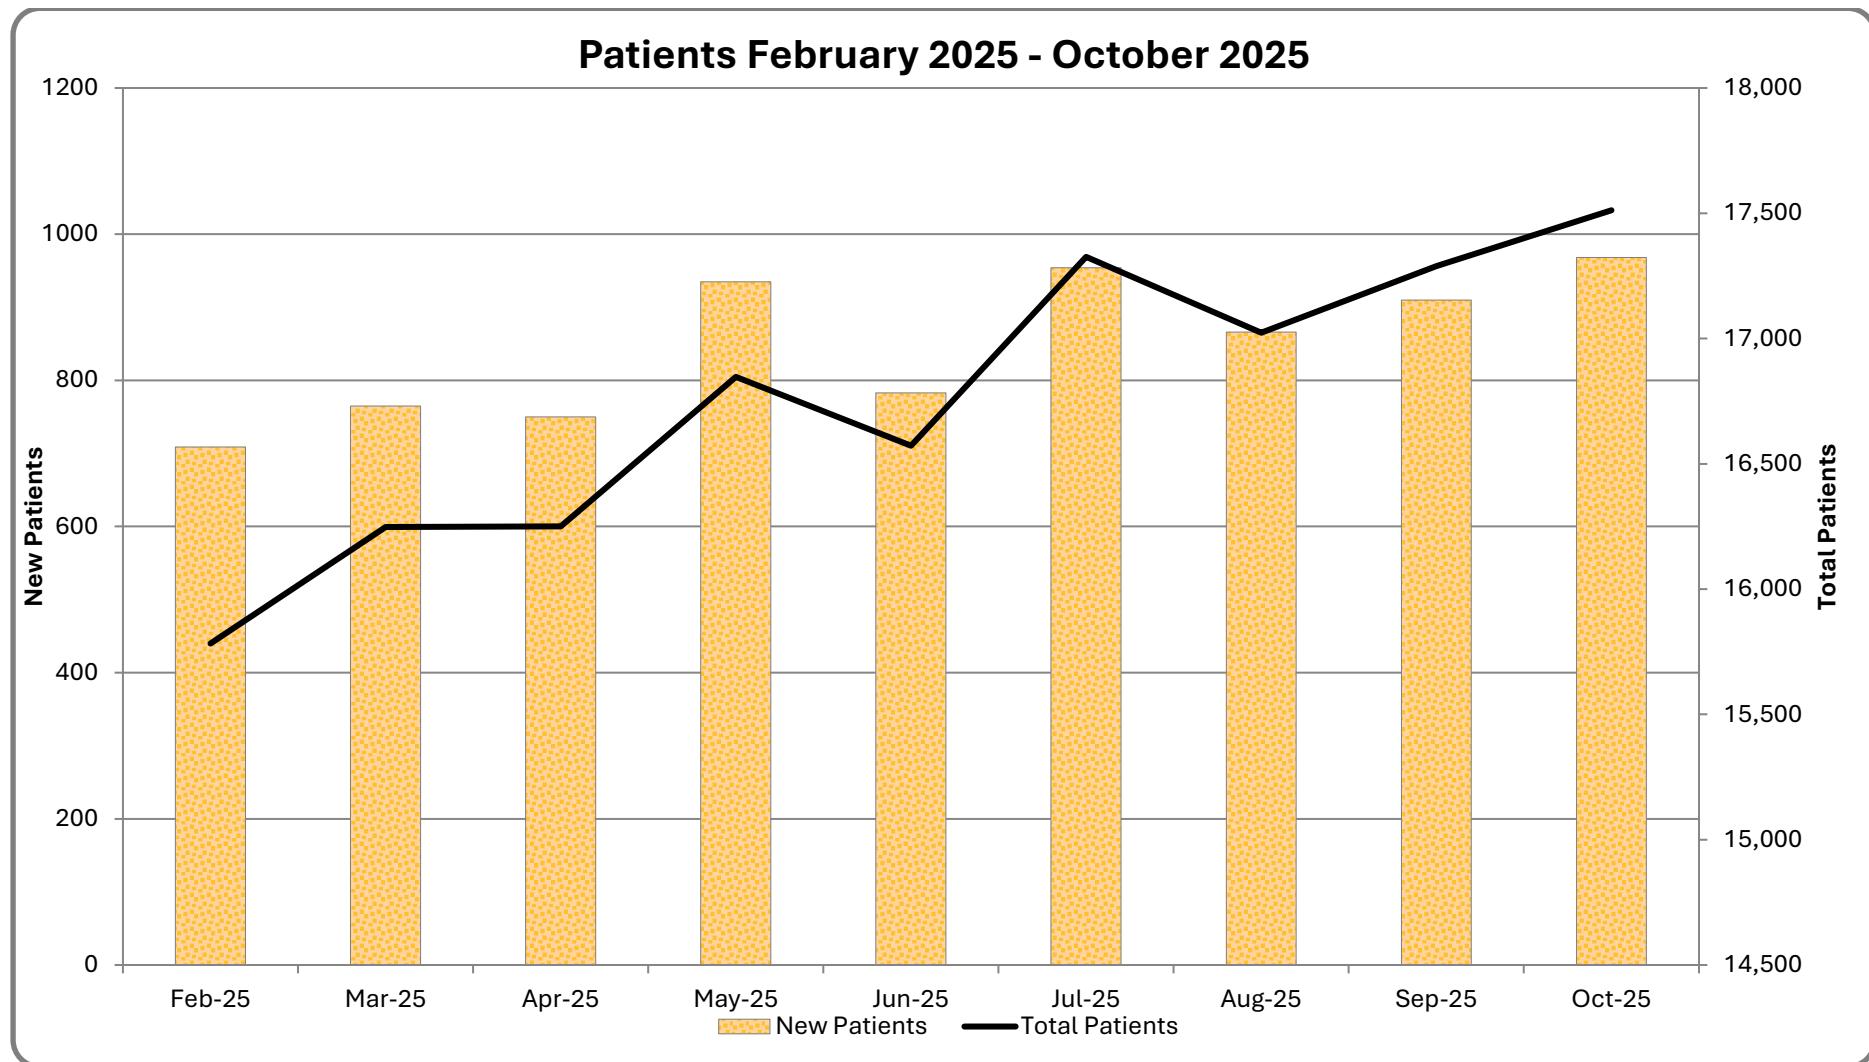

OFFICIAL

**Authorisations and dispense events.** This graph shows the number of new authorisation requests approved and the number of dispense events over the last 9 months.

OFFICIAL

OFFICIAL

| Number of registered facilities | Number of registered SC Ig approved facilities | Total number of registered users |
|---------------------------------|--|----------------------------------|
| 1,227                           | 122  | 29,536                           |

**More information**

Annual reports on the issue and usage of immunoglobulin provide further information. For context and links, see: [Immunoglobulin usage and data | National Blood Authority](#).

In addition:

BloodSTAR Facility Administrators can access reports about their facility's Ig usage through the reports function in BloodSTAR.

Jurisdictional Reports are available to Jurisdictional Blood Committee (JBC) representatives and their nominees. These provide information on the Ig dispensed for each State and Territory.

The NBA will also consider specific requests for data. All requests will be considered in line with the NBA's Data and Information Governance Framework. More information, including about how to submit data requests, is available [here](#).
