

# BLOOD MANAGEMENT

Let's work together to use blood appropriately

Demand for red blood cells is the highest we have seen since 2015

## OPTIMISE BLOOD MANAGEMENT

- ✓ Maintain blood and blood product inventories
- ✓ Transfuse appropriately  
Consider all of the risks, benefits and the full range of available therapies before deciding to transfuse

Patient Blood Management Guidelines: <https://www.blood.gov.au/patient-blood-management-pbm>

## REDUCE BLOOD WASTAGE

- ✓ Monitor your stock levels
- ✓ Practice good inventory management

## DONATE BLOOD

- ✓ If you are healthy and well - make an appointment here  
<https://www.donateblood.com.au/>

Together, we can....  
Ensure blood and blood products are available for those who need it most
