

Stock Movement Dashboard

The Stock Movement module in BloodNet allows users to transfer and discard Blood and Blood Products. Transfer episodes should be created when a product is moved to or from your facility and Discard episodes should be created when a product is discarded for any reason.

To access the Stock movement dashboard click on the **Stock movement** tile from the home page. You will not that the tile contains details of any active transfer episodes at your site.

The Stock movement dashboard displays an overview of your site's most recent Transfer and Discard episodes and also allows users to create transfer and discard episodes. There is also a **Check item status/movement history** search box at the top right of the dashboard which allows users to search for products and view the history of the product and/or discard or transfer the product depending on the product type and status.

1. Stock movement

This section provides links to create discard or transfer episodes.

2. Transfer episodes

This section displays recent transfer episodes. It will display all the transfer details such as the packed date and time, transfer created and time and reason. You can click either **View** or **Receipt** if you wish the action the episode. Click the blue arrow to expand the episode details.

3. Recent discard episodes

Recent discard episodes will appear. You can click the discard number hyperlink to view further details. **Please note:** only Facility Administrators can edit recent discard episodes.

Discard no	Discard date	Contents	Discard reason	Total price	Actions
4000138	28/06/2018 11:50 (AEST)		Damaged – Inter hospital / inter lab transit	\$146.23	Edit
2892131	22/06/2018 09:47 (AEST)		Damaged – In laboratory	\$146.23	Edit
2851390	24/05/2018 19:55 (AEST)		Storage – Out of temperature control	\$412.66	Edit
2847796	24/05/2018 09:09 (AEST)		Damaged – Laboratory	\$158.68	Edit
2841989	22/05/2018 23:55 (AEST)		Expired – Time expired	\$1,205.71	Edit

4. Search function

Scan or manually enter the Donation or Lot number to check the item status or movement. Click **Check** when the details have been entered.

5. Unreceipted issue notes

Issue notes which have been awaiting receipting for greater than 72 hours will display on the top of the stock movement dashboard until they have been actioned. Click on the blue issue not hyperlink to action these requests.

You can hover over **‘what do the icons mean’** for a breakdown of the product/components icons.
