User Tip Sheet – Submitting an Ig dispense request for individual patients in BloodSTAR

Submitting an Ig dispense request for individual patients in BloodSTAR

BloodSTAR allows nurses to view patient’s authorisation details, create and submit a product dispense request for individual patients or a planning sheet for multiple patients. This tip sheet outlines how a nurse can request Immunoglobulin (Ig) doses to be dispensed for individual patients.

How do I request Ig for my patients?

1. To request an Ig dose for an individual patient, click on the “Request Dose” link against the patient for whom you want to obtain the dose.
