

### Viewing authorisation details in BloodSTAR

BloodSTAR allows nurses to view patient’s authorisation details, create and submit a product dispense request for individual patients or a planning sheet for multiple patients.

#### How do I confirm a patient is authorised to receive Ig?

1. You can see a list of all patients registered to your facility from your home page.
2. Alternatively, you can use the search function to look up individual patients. You need three identifiers, e.g. first name, last name, date of birth, URN and/or Authorisation number.
3. Click on the number in the “Authorisation” column to view the patient’s current authorisation details.

The screenshot shows the BloodSTAR interface for 'Authorised Patients at Cairns Base Hospital'. It includes a search form with fields for Given Name, Family Name, Date of Birth, URN, and Authorisation Number. Below the search form are two checked options: 'Administering facility' and 'Treating facility'. A table below lists three patients: APPLE, Adam; BEETROOT, Betty; and BLOOD, Ruby. The 'Authorisation' column for each patient contains a magnifying glass icon and a number (WL84599W, GS27849C, WA88839W). Callouts with numbers 1, 2, and 3 point to the search form, the search button, and the magnifying glass icon in the table, respectively.

## User Tip Sheet – Viewing authorisation details in BloodSTAR

### How do I request Ig for my patients?

In this section you can see how to request Ig doses for individual patients and create a planning sheet for a number of patients, for example infusion clinics.

#### Creating Individual Patient Dispense Requests

1. To request an Ig dose for an individual patient, click on the “Request Dose” link against the patient for whom you want to obtain the dose.

The screenshot shows the BloodSTAR interface for 'Authorised Patients at Cairns Base Hospital'. It includes a search bar with fields for Given Name, Family Name, Date of Birth, URN, Authorisation Number, and Pending Review. Below the search bar are two checked checkboxes: 'Administering facility (where product will be given or infused)' and 'Treating facility (where the patient is diagnosed and clinically reviewed)'. A green callout box with the number '1' points to the 'Request Dose' link in the table.

Patient *	Authorisation	Dose	Treating Facility	Treating Specialist	End Date	Pending Review	Request Dose
